

PLEASE do not give priority to LPFM. If you do, my favorite station, which I support financially, may be replaced with a LPFM station. K-LOVE serves me as a resident of my local community, by providing programming that is not available on the local stations. If K-LOVE were displaced by an LPFM, several hundred people in my community, many of whom support K-LOVE financially, would be very upset. With good cause. Here we are listening to programming we enjoy and support, and all of a sudden it's replaced? This should not happen. K-LOVE is an important part of my community. The songs on K-LOVE are positive and encouraging. This station is needed in my community where there is a large drug problem with the kids. The messages on the local stations will not do anything to change these kids' lives, but every year there are thousands of people who turn their lives around because of K-LOVE. Please don't take away my K-LOVE station!
